DEFINING STANDARDS OF EXCELLENCE

Welcome to a new decade! Whether you're kicking 2020 off with a New Year's Resolution or not, it's bound to be an interesting year.

We have lots of exciting news to begin the year with. Firstly, the ATC is delighted to announce a new partnership with the Google Digital Garage, starting with a training and networking day in February in Portsmouth. Secondly, we have a new FX partner who really understands what our industry is about and last, but not least, we've reached an important milestone in our PhD research on the economic value of language capabilities.

And of course, our new Associate Member category is now open for applications!

Raisa McNab
