

ATC GOLD 2026 CONFERENCE

Past proven. Future forward.

21–23 October 2026, Glasgow, Scotland

Just as weather and waves are constantly changing, so too is the business landscape in which language service companies operate.

The good news? Language service companies have become expert navigators: resilient, agile, business smart. But even the most experienced sailors need to know where they're heading, a compass to guide them, and a crew to support them.

ATC Gold is *the event* for language service companies in the UK.
