

**For developers**

- A New API for translation & compliance on blockchain

**Easily create your own translation wallet** to accommodate and *add value* to your client's translation and certification needs.

### **You will be able to offer:**

- **100% traceability**
- Provide full Compliance.
- Confidentiality & Security
- **Carry out all of your legalization workflows in one place.**
- **Blockchain hashing with digital signatures.**
- This is for all types of data records & media files; text, video, audio, NFT, etc
- Starting volumes for the API 1000-5000 documents
- Volumes of 50,000+ for greater value

### **How to gain access to the Popcorn API?**

Just Email us to **book a meeting** to start at:

[Ac@davrontranslations.com](mailto:Ac@davrontranslations.com)

To the attention of: Anne-Cecile.

### **How To get a Sworn Translation in France?**

Get Access to our **Popcorn Platform**.

This platform is a complete A-Z certified translation process that includes Apostille and Legalization. **It simplifies all the steps of a project for translation, certification, and legalization of signatures** for the various issuers and recipients of the documents.

Prices vary depending on volume.

**Member-to-member offer:**

**Order** your sworn translation from Davron Translations **& get the first 3 month-subscription free for popcorn.**
